

Evidence collected by Michael John Lake against Bowling Green & Wood County Ohio

Evidence of crimes by agents acting for Bowling Green and Wood County Ohio are in the following pages. Since I was not taught how to best make my case like lawmen or prosecutors are trained, I will update comments when it comes to my attention anything unclear in these records and on my WhyHope.com website or other locations of my evidence like recordings on YouTube of the witnessed intimidation by FBI agents, etc.

Claiming I had delusions also required agents arresting, transporting, and jailing me to contact my spinal cord injury doctors for my detailed medical needs to prevent hurting or perhaps killing me with their admitted failure to work with me ahead of time to protect my safety and their own as required by state and federal laws. In fact it was their interference with medical providers which is why I had not been admitted to Wood County Hospital and the failure of Flower Hospital to provide proper medical care because lies by lawmen were believed and no one was contacting my regular medical providers as required by law! Forcing unwarranted medical care without proper facts caused me pain and injury with a risk of killing me. All of this I was being threatened to not act on or I would be retaliated against more.

Another serious issue is I did have a right to privacy in some of my medical needs but at the same time there was a legal duty for lawmen not to harm me because of issues of my being significantly paralyzed. Perhaps by law a lawyer or public defender should be involved in order to not let fear of physical harm silence a defendant like me from acting as a witness and making me fear to assist in defending myself. Neither the Wood County Public Defender or private lawyer I was later able to arrange had acted to address how I was treated. In fact these lawyers acted like it was justified for lawmen to physically hurt me. **Intimidated by Jaycees as killer since 2001, 1st pages one example, see my website.**

My notes will be inside boxes to show they are my own statements of fact or opinion, etc.

Subject: Are Executive Meeting Minutes Privileged? (Re: To save

« Previous | Next »

Date: Wed, 27 Jun 2001 18:05:57 -0400**From:** mikelake@toast.net**To:** SspencerLaw@netscape.net

Dear Atty. Spencer,

I do not buy it! Any claims of "privileged information" over documents that are open to review by the general membership of the Jaycees is absurd!

Since it is obvious that you are not concerned by matters of fact, and how those issues may be used against yourself and the Jaycee organization, I will no longer make any attempt to deal with you. Expect the fullest extent of action against you and the Jaycees that is allowed by law.

I am sorry that things are not working out. There is no demonstrated attempt on your part, or that of the Jaycee Organization, to settle this without resorting to extreme and disturbing behavior. I do have witnesses.

Sincerely,
Michael Lake

> From: SspencerLaw@netscape.net

> To: mikelake@toast.net

> Subject: Re: To save time in court, would you like to discuss a few issues?

> Date: Wednesday, June 27, 2001 11:47 AM

> Dear Mr. Lake:

> First, the statements about which you have questions are privileged by the attorney-client relationship existing between me, the Ohio Jaycees and the United States Jaycees. Nonetheless, you and both heard no less than three witnesses testify yesterday that they and others in the state and national organizations had the fear that you would appear at an event, armed, and begin shooting people. The term "go postal" was used by several of these witnesses.

>

> Second, given your history of agreeing to restrictions on your conduct, only to have them broken, it was my impression that if a restraining order were granted -- as it now has -- you would knowingly violate it. The sanction imposed by a court when one violates a court order, such as a restraining order, is to hold them in contempt, and jail the offender. Judge Davidson warned you yesterday that should you violate the restraining order he will order you committed to jail.

>
> Finally, I strongly encourage you to seek the advise of a licensed attorney before filing any counterclaim, etc. The law is absolute that statements made with a reasonable basis of belief are absolutely privileged when made during the course of litigation, as were those about which you now apparently complain. Should you assert a counterclaim based on those privileged statements, it would be my intent to seek sanctions against you, or your attorney, based upon the obligations of Civil Rule 11 and Revised Code Section 2323.51. The sanction for violation of those provisions is an award of attorney fees to the moving party, which in this instance would be the Ohio and United States Jaycees.

>
> The representatives of the Ohio and United States Jaycees, as well as myself, truly feel sympathy for you. It was apparent to everyone in the courtroom yesterday that you are in great need of emotional and/or psychiatric counseling. I sincerely pray that you seek out and obtain the help you need. However, if you persist in the path you are now apparently following, we will respond appropriately. We truly hope you heed Judge Davidson's admonition and do not continue the conduct which has proven so problematic in the past.

>
> If you have any comments or questions, please do not hesitate to contact me. Scott W. Spencer

**Bowling Green PD
Report Supplement**

Event Number: 200800010125

On 5/22/08 I responded to the sidewalk in front of the Bowling Green Police Division after LAKE was observed picketing (with a sign that said "Who protects the mentally ill?"). LAKE was wearing a set of wings on his back as he sat in his motorized cart (Rascal). The road units had been briefed on LAKE's recent e-mails to the department and the possibility that a visit could result in violence.

LAKE sent e-mails that alluded to the possible use of force on his part. In one e-mail on 5/12/08 he wrote "*I will be picketing again, and attacking your department for one clear failure*". (SEE RECORDS FOR COPIES OF E-MAILS)

On 5/22/08 he wrote "*I hope they destroy your department like their memory keeps tormenting my mind.*" He goes on to write "*Your men wanted me to be afraid in 1998 and 1999. Did they expect no consequences for shooting from the hip?*" The sender's name on the mailing was listed as "*Killer Mike Lake*".

SGT MCDONOUGH was on station and directed me to contact BGFD to have them on standby and to have a pre-screener enroute to the hospital for when we transported LAKE. MCDONOUGH had already talked to us about the preferred course of action if LAKE came to BGPLD so the officers knew what to expect. MCDONOUGH had instructed me to cite LAKE for inducing panic if he was not admitted to a mental health facility that day.

Bowling Green Fire Department arrived a short time later and stood by as I made contact with LAKE. SGT MCDONOUGH and several other officers were initially present when I began talking to LAKE. He cited unfair treatment at the hands of the local and federal authorities for his frustration.

He continued by saying that the Jaycee's were involved in a conspiracy against him and they were trying to silence him. I explained that we wanted to help him and we could get that started by having his speak to a person at the hospital.

He talked about being ignored and not receiving proper medical treatment for his mental illness. I told him we were addressing that now and he needed to go with the BGFD to talk to a mental health professional. An off-duty nurse from Behavioral Connections stopped by our location and volunteered to speak to LAKE. She explained to him that we were serious about him needing to be transported to the hospital. I added that we would like to transport him willingly.

He allowed BGFD to put him in the back of an ambulance. His cart was secured along with his vehicle and other property. His cart was subsequently plugged in / secured in the BGPLD garage. His vehicle was taken to the pole yard and secured.

PTL MULINIX rode with me to the hospital to ensure LAKE's continued cooperation. A pre-screener spoke to LAKE. She decided not to have him admitted into a mental health

**Bowling Green PD
Report Supplement**

Event Number: 200800010125

care facility. The hospital medically cleared him and BGFD came to our location to transport him.

I advised SGT MCDONOUGH and the Wood County Justice Center of the situation. I told the WCJC about LAKE's medical needs regarding his paraplegic / bi-polar conditions. I called dispatch and asked them to send the jail a commitment for inducing panic for LAKE.

I rode with ambulance as they transported LAKE. The hospital provided a catheter kit to LAKE so he could drain his own bladder. He was not sure of his medication dosages. He provided a phone number for his roommate who reportedly had the information. Upon arriving at the jail I gave them the medical clearance paperwork. I briefed them on the situation then left with squad. I sent a copy of the citation to LAKE in the WCJC.-

Reporting Officer	Emp. No	Date	Approving Supervisor	Emp. No	Date
SCOTT KLEIBER		8132 05/23/2008			

Note: I was in fact threatened by FBI agents as witnessed by my companion and the agent audio recorded threatening me. Witnesses associated with the Jaycees, my own audio recordings of being confronted by agents acting for Bowling Green (on WhyHope.com and YouTube), and official records copied in this PDF file and dozens more made by agents of the legal system show I have every reason to believe the claims I made and was not delusional.

A key person who admitted dozens of VIPs were being lied to about me is famous Ohio Republican Party lawyer Scott W. Spencer who was rewarded for helping with several newsworthy events but also implicated in criminal conduct years before he assisted the National Jaycees in a clearly illegal effort to defame me, intimidate me, and silence me so they would look less like a hate group for their actions by putting blame on me. Spencer made up false evidence he used in the 2001 Marion, Ohio, case which he won with his lies and deceptions.

My belief that Bowling Green, Ohio, Prosecutor Reger and Judge Reddin were involved in criminal conduct against me with help of police and other locals came from the admissions of Scott W. Spencer threatening to sue me and in court, supported by witnesses claiming what Prosecutor Reger told them. The records included here show that instead of any investigation if witnesses were lying or telling the truth, instead I was called delusional and prosecuted for telling unwanted facts with threats for my silence and to not call myself a victim.

The following email was sent from the BGPD Website General Contact Form:

Sender's Name: Killer Mike Lake
Email Address: kd8cik@hamdomain.com

Comments:

Perhaps I need to die in Bowling Green before your department takes what it did to me seriously. It is what your records show is expected. After all, even last fall no attempt was made to find me help under the Ohio mental health law. These things are documented and witnessed. I hope they destroy your department like their memory keeps tormenting my mind. Your men wanted me to be afraid in 1998 and 1999. Did they expect no consequences for shooting from the hip?

Sent from IP Address:

BGPD - A Nationally Accredited Law Enforcement Agency

Wood County Prosecutors and other agents clearly were involved in the effort to protect Prosecutor Reger from investigation and silence me as the following shows them being named, both the old Wood County Prosecutor from 2008 and the new one who got elected likely because I caused Prosecutor Reger to lose that election by reminding citizens who were aware evidence existed of his unethical and likely criminal conduct abusing the power of prosecution. Witnesses are now suggesting many local agents are abusing their powers.

Jason, just to give you a heads up, Ray got this email on our web site. Sounds like this guy may try to provoke the PD into arresting him. I talked to Doug Cubberley and forwarded him the email. Lake has mental health issues and Cubberley is familiar with him. He picketed the court earlier this year. I assume you guys have dealt with him already at some point. Doug said the last time he saw him the guy was in a wheelchair. His DOB is 11-8-66, SSN [REDACTED].

Subject: RE: Contact Us Form Submission

I called Doug Cubberley who said they are all too familiar with Mr. Lake. He was involved with the Jay-Cees and his behavior ended up getting him charged with menacing by stalking in 1999. Reger dismissed the case with the condition he have no contact with certain people in Jay-Cees. He has since picketed BGMC with signs saying Reger and others are criminals, etc. He clearly has mental health issues. I forwarded the email to Doug. They will call if they have any other questions.

Comment: I want to be prosecuted and jailed as BG police and prosecutor threatened.

When I complained of being harassed no one cared about the psychological harm and fear being caused me by false claims I was dangerous or would kill because I had bipolar disorder, a mental illness. Instead of using Ohio mental health law I WAS PSYSSICALLY THREATENED in front of coworkers, or falsely harassed as a criminal by Reger.

The FBI threatened to arrest me in my home last fall for picketing and letters about these truths. No one has done anything about the FBI despite widespread complaints. I can not take the nightmares and day fear of being harassed as a killer as documented in evidence. I can not kill myself. So I want to be arrested and get hurt or killed in jail as hinted by FBI agents.

No one has told me it was wrong to harass me with these fears without help to deal with it. In fact mental health quacks say to expect harassment and refuse to see how bad it gets. My rational mind battling the false irrational emotions and fears used against me. No one giving a damn about a compassionate man harassed by people good at threats and fear. I do not know how to fight it.

This nightmare is home in Wood County, so it must end there. I will find crimes which cause no significant harm, are obvious, and must get me put in jail or make law enforcement look like fools. I will try to record everything as evidence to convict myself and make sure people know I make it to jail before being attacked or killed. It must be jail because that is what the written threats against me state.

Give me the experience used to take my liberty from me the last ten year!

Sincerely,

Michael Lake

Comments:

I will be picketing again, and attacking your department for one clear failure. If people were worried I would kill as suggested, then why was Ohio mental health law not used to hopefully blacklist me from buying a gun? The efforts in your records failed to get me help or solve any problems. Instead I was given more reasons to fear, irrational or not, and more to write about. With your department failing to admit problems it is certain to end up far worse for all of us. So be it. It was my foolish compassion which got me into this mess at the start. I might as well suffer from the harassment until I see God again.

Mr. Lake,

My name is Jason Stanley. I am the Detective Sergeant for the Bowling Green Police Division. I intended to communicate with you earlier but I was prompted to because of your most recent one dated 5/22/08.

I would like to sit down with you and discuss your concerns and email messages. Please understand that I am concerned about your message and the implications made therein. Unfortunately this is one of the problems with email. There is no opportunity for the reader to understand the sender's intent. This is why I want to sit down and talk with you face to face.

I would like for you to come to the BGPD and have a face to face meeting with me at your earliest convenience. That way we can work through these emails and I can better understand your concerns.

If you are more comfortable having a mental health advocate present during our conversation please feel free to arrange for a person of your choosing to accompany you or let me know and I can arrange for an advocate from one of our resources to be present.

Finally, if you are uncomfortable coming to the police dept. we can arrange for our meeting to be held at another more neutral location within Bowling Green.

Please call me at the below listed number at your earliest convenience.

Respectfully

Det. Sgt. Jason Stanley

Discharge Summary

Patient Name	Dictated By	Admission Date	Unit History #	Room
LAKE, Michael J	Wendy Moenter, R.N.	02/02/2009	8285587	719-01

D.O.B. 11/08/1966

ACCOUNT #: 106195703

DISCHARGE DATE: 02/09/2009

PRINCIPAL DIAGNOSES:

AXIS I: Bipolar disorder.
 AXIS II: Personality disorder.
 AXIS III: Status post spinal surgery.
 Gastroesophageal reflux disease.
 AXIS IV: Severe.
 AXIS V: 45.

HOSPITAL COURSE: The patient was admitted from Behavioral Connections of Wood County. He had been charged with inducing panic. The patient had been at Wood County and was paranoid that prosecutor in the court were plotting against him. He had been delusional. He gave a history of treatment at the VA. He had had surgery for spinal tumor. For a detailed history and mental status exam at the time of admission, please see the written psychiatric admission note of February 3, 2009.

After admission the patient was encouraged to participate in unit milieu and was started on lithium, imipramine, Ditropan, dicloxacillin and baclofen. The patient was inappropriate and had flight of ideas and paranoid delusions. He exhibited grandiosity. He was alert and oriented and memory was intact.

The patient showed no insight. He stated that someone may have been impersonating him. He was hypertalkative and continued to exhibit loose thinking. He was paranoid about the Wood County staff. He also was discussing concerns about his poor social skills.

The patient remained preoccupied and paranoid about the Wood County prosecutor. He had been less agitated and his speech was not as pressured. He had been involving in unit milieu.

Later, the patient was less withdrawn. He denied any suicidal or homicidal thoughts. He had signed a request for discharge. He stated he may have signed a statement at Wood County, but he felt that his thinking was confused.

CONDITION OF PATIENT UPON DISCHARGE: The patient was requesting discharge. He denied any suicidal or homicidal thoughts. He had been in better control. He had a police hold and was released to Wood County. The case was discussed with staff.

Judge Reddin ordered breaking the claimed 2009 plea agreement and provided information to the VA which I did not sign to authorize and I believe was in part false information, based on claim of the probation department and my lawyer who told me to ignore it due to possible retaliation. If I had known the agreement would be broken by the court then I would sooner had a trial to expose the truth and prevent this clearly illegal official misconduct. YouTube recording of a VA counselor harassing me as marked man, etc., resulted.

Telephone Note:

Writer tried to call clt about his missing the scheduled appt and ended up speaking with clts room mate who reports that clt is ill and that he will have to reschedule.

DSM-IV-tr DIAGNOSTIC IMPRESSION:

Axis I: schizoaffective disorder/bipolar disorder by hx

Start/end time: 10-11:15

CURRENT SYMPTOMS/PROBLEM STATUS AND SESSION CONTENT (issues discussed):

Clt is a transfer patient of Mr Phiffers, he reports that he was just released from flower hospital and he reports that he is not homicidal or suicidal. Clt reports that he is completely shocked at the way the Bowling Green Police treats Veterans, he states that he is going to expose them. Clt reports that he is currently under watch by the FBI and the US Marshalls as he reports that they came to his home and took him to jail for threatening a judge. Clt presented video recorded proof that this did take place. Mr Lake reports that he that he continues to suffer from nightmares of his US Army experience and how he was actually treated while enlisted. Clt reports that he feels an obligation to stand up for the rights of those who cannot stand up for themselves. Mr Lake admits to having suicidal ideologies back in Oct 2008, but reports that at that time he did not have an official plan, he further reports that he no longer has any thoughts, intents or plans with regard to that ideology or anything related to homicide. Mr Lake reports that he just is in seek of fair and equal treatment.

INTERVENTIONS (e.g., psychoeducation, supportive listening, counseling, cognitive-behavioral treatment, coping skills, other psychotherapeutic interventions, medication management, etc.):

Writer provided supportive listening/coping skills to combat anger/ reviewed alternative ways of getting ones point across without violating local state or federal laws/cognitive behavioral tx

TREATMENT PLAN REVIEW/UPDATES (e.g., progress, regression, continuation of current plan, modifications if indicated, follow-up appointment info, medication changes):

Clt appears to be very agitated by the way he has been treated, clt also appears to display very impulsive and somewhat reckless behavior, clt

Start/end time: 1320 - 1400

CURRENT SYMPTOMS AND PROBLEMS (include problems with medication/side effects, if present):

Seemed quite distressed but often presenting case in a strongly ambivalent language. E.g. c/o girl friend/room mate planning to leave the home following police and federal Marshall coming to pick him up and charging him with threatening a judge and prosecutor. Thought the experience was so traumatic for room mate that she required hospitalization. However, thinks it's ok for her to leave because she cannot bear to see anyone suffer.

Also home health aide did not visit for a while because she was frightened by the scene and truthfully had reported her experience to her supervisors.

Felt he was in the right and had evidence (in the form of audio and video surveillance records which he shared) to prove harassment and malicious intent. However, a lawyer he had hired did not agree that this was relevant evidence. He disagrees with the lawyer and thinks he is offering unethical advice and that his advice sometimes showed lack of knowledge of Federal law which he had read up himself. He ignored a reminder that he himself had commented that he sometimes presented his case in scary ways that provoked reaction from law enforcement. He remarked that sometimes "delusions are good for you". He thought his problems related to excess empathy and lack of ability to ignore wrongs and somehow veered into global warming.

Compliant with meds

Had not done lithium level and too late in the day to have useful evaluation

PERTINENT MENTAL STATUS INFORMATION:

Alert

Orientation: person, place, time

Speech: rambling, pressured

Re: State v. Michael Lake (CRB081358 & CRB08-02655)

Dear Officer Kleiber & Detective Becker:

Please be advised that the above listed cases have been resolved. Mr. Lake entered into a COP for 2 years on the following conditions:

- 1) waiver of time
- 2) no similar offenses
- 3) pay court costs
- 4) remove all internet sites within his control & refrain from further postings & remove any recording/writings referring to Beth Mertz &/or Matt Reger
- 5) no contact with BGPLD, direct or indirect except for legitimate emergency services with BG's jurisdiction
- 6) take all med's prescribed by the VA
- 7) continue with all mental health treatment as determined by the VA
- 8) sign appropriate release of information forms with BG probation department to assure compliance with the VA

The above listed terms are for both cases, therefore, if Mr. Lake violates any of the terms the cases can be reactivated. I have enclosed a copy of Judge Hoover's Judgment Entry.

If you have any questions or concerns regarding this matter, please feel free to contact me.
Thank you.

Yours Sincerely,

Melissa M. Purpura
